4 Ways of Looking at a Photo Book

The Travel Album

Turn your vacation photos into a travelogue for the ages with the click of a button: that time you ate a baguette in the Jardin du Luxembourg. The picture of you standing in front of the Louvre in a silly hat. If you're feeling particularly adventurous, consider experimenting with mixed media — why not incorporate scans of tickets, or passport photos, or the wrapper from the best chocolate bar ever to be crafted in the history of time?

The Cook Book

Grandma's roast chicken is a triumph. Uncle Alfred did a mashed potato like nobody's business. Your spicy linguini is the stuff of legend (if you do say so yourself). Make sure your family recipes stay classic with a custom cookbook you can pass onto the grandkids (or the college-bound kids, or the kids who just moved into an apartment...).

The Children's Book

Got a car-obsessed kid? A kid really into horses? A kid passionate about space travel? Like, really passionate about space travel? Write them a book about it. Or, just, you know, assemble a book about it with your pictures, or internet pictures, or pictures from Instagram. A little cropping, a few captions, some tough font decisions, & you're ready to publish.

The Wedding Album

Mazel tov! You're married now, or someone you know is married now, or at least, you've come into possession of some wedding photos. Why not turn those magic moments into a hardbound celebration of your love?

In Honor of - NATIONAL TELL A JOKE DAY here are some jokes

Why do chicken coops have two doors? If they had four doors, they would be raised chicken coops.

Why did ABLE cross the road? So she could say hello from the other side.

What did the blanket say when it fell off the bed? Oh, yeah.

The past, present, and future, walk into a bar. I was there.

What did the traffic light say to the other traffic light? Don't blink, I'm changing.

These might not be that funny, but our custom products are no joke. We can't wait to see how you create a humorous design on our custom products. On top of your order being guaranteed, we're pretty certain you'll come up with funnier ideas than we do, too!

It's my dog Chuck, & me. Why did he get a birthday and I don't? I'm awesome & Chuck is awesome, so I figured what better than a blanket of the both of us. - Jack

[Design My Card](#)

We love sending holiday cards to our friends and family. They're so much more personal and meaningful than a Facebook post. And with our new card options, you can find the perfect custom card for all of your loved ones.

All of our cards can be easily customized with your favorite photos, text, designs, or monograms, and include matching envelopes. They're also all available in 4" x 8" and 5" x 7" sizes:

GLOSSY PHOTO CARDS

Our custom photo cards are an easy way to make a card for everyone on your list. Use our online design tools to add text directly to the card, since you can't easily hand-write on the delicate photo paper these cards are printed on.

BASIC CUSTOM CARDS

Our basic card paper is a coated heavyweight (110 lb) paper with a silky, satin finish. You can choose between flat and folded card varieties, too.

PREMIUM CUSTOM CARDS

Our premium card paper is even thicker than our basic paper, and comes in glossy or matte finishes. You can also choose between flat and folded premium cards, too.

SIGNATURE CUSTOM CARDS

Our signature card is printed on a super-premium, matte heavyweight paper with a distinctive texture. It's our favorite card for handwriting messages, as ink absorbs beautifully into this paper. Like our basic and premium cards, our signature cards also come in flat and folded card varieties.
